

Summary information for 'Sharing faith the Jesus way' from Bible Reading Fellowship

AIM: to help Christians share their faith and make new disciples - with key lessons from the way in which Jesus did it.

The big idea:

There are three people in a triangle of relationships. This book is about how we connect:

1. God's story
2. Their story
3. My story

From the Gospels we see that 'the Jesus way' is often about building a relationship (dialogue), so that the other person hears the aspect of God's story most relevant to them. By prayer and the work of the Holy Spirit they respond (A) to God's love for them - and become a new disciple.

Please note: although in the Gospels 'words' and 'works' are inseparable, the emphasis of this book is on the 'words' of Jesus. We consider different aspects given in answer to the key question, 'what must I do to inherit eternal life?'
